Latest news and other goodies

Do you have plans for a day with sustainability in focus?

For those of you who want some ideas, there are several good days to build campaigns around in March where our sustainable toners fit in really well.

March 21 - International Forest Day

About a third of the earth's surface consists of forest. The forest provides unique habitats for animal and plant species, its ecosystem services provide people with clean air, clean water and recreational opportunities.

Forests are a direct prerequisite for providing livelihoods for an estimated 1.6 billion people.

This year's theme for 2023 is The Forest and Health. The forest does so much for our health. They purify the water, purify the air, capture carbon dioxide to combat climate change, provides food and life-saving medicines and improves our well-being.

March 22 - International Water Day

This year's theme is: Accelerating change.

This World Water Day is about accelerating change to solve the water and sanitation crisis. Since water affects us all, we all need to take action.

This means that you, your family, school and community can make a difference by changing the way you use, consume and manage water in everyday life. Do your part, do what you can!

March 26 Earth Hour

Earth hour is a manifestation for our only planet. Turn your lights off to demand that policymakers act against the climate crisis and the decline in biodiversity – for a sustainable future.

Why Earth Hour?

To urge our rulers to make strong and tough political decisions to stem the climate crisis and preserve our biodiversity. Make your voice heard by turning off the lights at 20.30-21.30 on the last Saturday in March. In

2022, about a billion people from 192 different countries took part in the manifestation for our only planet. Together we send a strong signal to all decision-makers.

Five quick ones with A-K

1. Your best tip to feel good?

Spend time with people who give energy

2. Your latest text?

From my husband who is in Antarctica

-Yes, lots to see all the time, cool scenery and lots of animals! Lots of seals, penguins, whales & some killer whales!

- It will be something to tell the grandchildren about

3. What is best at Greenman?

The joy and that we have a positive attitude, nothing is impossible!

4. What can you not live without?

My family ♥

5. What do you do on your free time?

Spending time with loved ones, exercising, watching TV and fixing the garden.

Presenting A-K Wissmar

Did you know...

A-K or Anna-Karin started working as a customer service ninja here at Greenman in mid-June last year. Before that, she has worked for 19 years in Norrköping both as a socialworker for people with neuropsychiatric diagnoses, a coordinator and in school with students who have difficulty coping with school and inventing funny things to do for the students at there breaks.

She was born and raised in Blekinge but has lived in Kolmården outside Norrköping for more than 20 years.

When she doesn't answer the phone or email at work, she likes to spend her time at home with her family. The kids are getting big and are now 17, 18 and 19 years old and don't think it's too much fun hanging out with mom anymore. 😊

By the way, it can be said that A-K is a cold person, cold as in that she is always freezing. The wool socks are on already at the beginning of October and will stay on until May. In the office, she is always wrapped in at least one warm blanket and preferably something knitted.

Follow deliveries - search orders

Since a few weeks back, it's now possible to trace our deliveries of the orders you have placed. At <https://shop.greenman.se/> you can see all orders regardless of whether you placed the order in the shop, via email or as a web order. All that is required is that you have a login, if you don't have one, please just contact us and we will of course fix one for you.

So how does it work then?

Well, under the tabs orderstatus and orderhistory you find in the upper menu are all your placed orders. You will find all the orders that are not

yet invoiced under orderstatus, and under orderhistory you will find those that are invoiced.

If you click on the current order number, you will get information about your order and there is also a tracking link so that you can follow the package's journey via Postnord.
